

General Conditional Major – Concrete Batch Plants

Guidance For Requesting a Decrease in Reporting Frequency

- 1) When requesting a decrease in reporting frequency, compare your actual emissions during the latest 12 month period to the emission triggers in the chart below to determine the appropriate frequency.
- 2) Please note: The Department requires facilities to submit reports, in a timely manner, for at least twelve months before allowing a decreased reporting frequency. Compliance history is also considered when determining whether or not decreased reporting frequencies will be allowed.
- 3) Records of emergency and portable generator(s) use in hours per month are to be reported annually on a calendar year basis.

Parameter	Annual Reporting	Semiannual Reporting	Quarterly Reporting
Production	Less than or equal to 450,965 cubic yards per year	Greater than 450,965 but less than or equal to 901,930 cubic yards per year	Greater than 901,930 cubic yards per year
